

Financing Solutions

Simple, Fast & Easy

MAC FUNDING CORPORATION

a subsidiary of  Mitsubishi Corporation

Simple, Fast & Easy

Being a fellow Mitsubishi Corporation company, MAC Funding is an integral part of MC Machinery Systems. We work closely with MC Machinery to ensure every transaction is fast and simple, saving you time, effort, and most importantly money.

Start-Up Financing

When it comes to purchasing Mitsubishi machines, MAC Funding is well known for its start-up financing throughout the industry. MAC funding has successfully helped many companies finance their first machine. As a young company, it can be difficult to prove your worth to a bank or lender that expects year of experience and large amounts of capital. MAC Funding gives these young companies a chance by looking at the details other funding sources do not consider, so that your new business can hit the ground running. Give us a try and see how MAC Funding can be a unique and worthwhile funding option for your start-up business.

Fast Track

For loans up to \$350,000, a signed loan application is all we need! The easy, one page application allows you to be approved within 24 hours. We also offer pre-approvals, allowing you to have your financing in place before you even decide on a machine!

Now Offering Operating Lease

MAC funding has a new financing option aimed at reducing your monthly payment. An operating lease, also known as a true lease or tax lease, is an attractive option for many companies. Benefits of an operating lease are that it allows your company to claim your monthly lease payments as an operating expense deduction, lower monthly payments and reduces your upfront costs. We work with you to structure the lease to fit your needs, even including an early buyout option.

Flexible Loan Solutions

A benefit of financing with MAC Funding is our fixed interest rate and payments, meaning your rate and payment will not change over the life of the loan. 3 and 6 month payment skips, advanced payments, low down payments, and rolling out-of-pocket costs, such as shipping and the warranty, into the loan are all ways we tailor each loan to the specific needs of our customer. Choosing MAC Funding also allows you to preserve your current credit line with other financial institutions for times of need or unexpected expenses.

Customer Satisfaction

The customer is first in everything we do. We want to make it easy for you to do business with us. We are committed to working hand-in-hand with you. We are pleased to offer both traditional loan financing and leasing options that can be tailored to your unique needs.

Meet The Team

Our MAC Funding Equipment Finance Specialists have years of experience working with customers in the machine tool industry and will analyze your requirements to develop equipment finance or lease options that are workable, simple and affordable, yet customized to your business requirements and your future plans

History

MAC Funding Corporation is an independent, U.S.-based subsidiary of Mitsubishi Corporation and has been serving the finance needs of the industrial machinery community since 1993.

Our mission is to provide financing of your machine with the best rates, easiest terms and smoothest process possible. Because of our extensive experience in financing industrial equipment, our approval requirements are typically less complicated than those of a traditional bank, finance or leasing company.

MAC Funding currently offers financing programs in the United States, Canada, and Mexico.
